HDDS - HIGH DENSITY DROP STITCH

- single layer dropstitch fabric
- knitted
- 90% of sup use this kind
- weight and stiffness good
- works good for sup with 15cm thickness

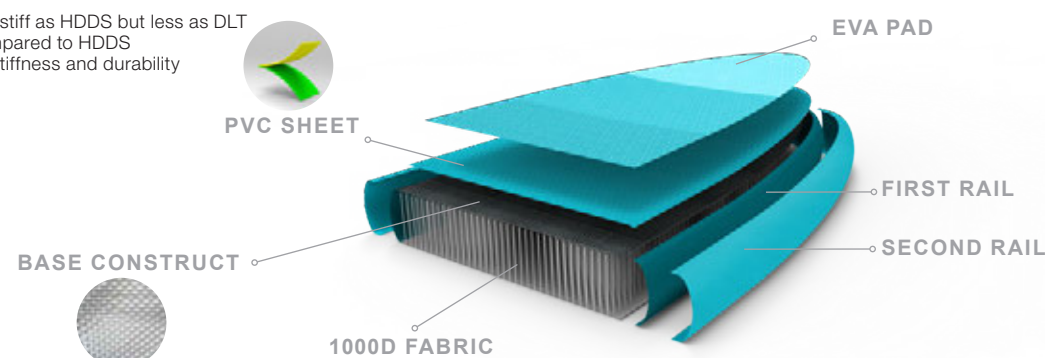

DLT - DOUBLE LAYER TECHNOLOGY

- double layer dropstitch fabric
- knitted
- fusion double layer - MSL
- more stiffness - holds more weight
- fabric is more durable against abrasion and as a matter better for air tightness

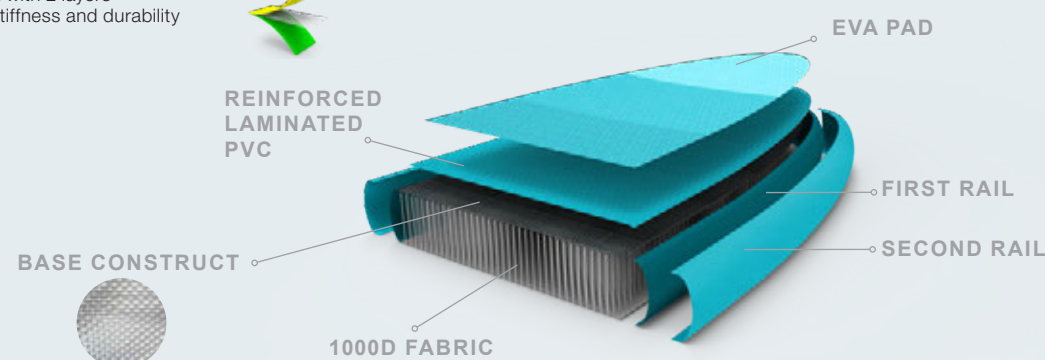

SL ULT - SINGLE LAYER ULTRA LIGHT

- single layer dropstitch fabric
- woven
- still it is a little more stiff as HDDS but less as DLT
- 25-30 % lighter compared to HDDS
- very light and max stiffness and durability

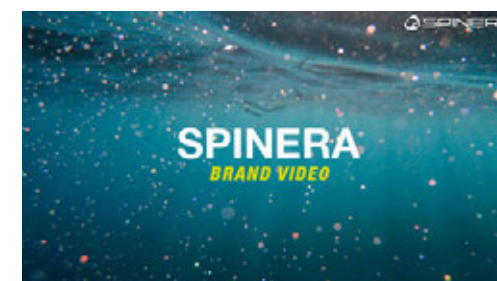

DL ULT - DOUBLE LAYER ULTRA LIGHT

- double layer dropstitch fabric
- woven
- same as SL ULT but with 2 layers
- very light and max stiffness and durability

BOATING

Boating products are essential companions for any boating trip, ensuring safety, comfort and fun on the water. They make sure that you are well prepared and can fully enjoy your time on the water.

DOCKS NEW

DOCKING SETUP

Elevate your waterfront experience with **Spinera Boating Dock Modules**. From Single and Twin Outboard Docks to Chill Docks, Steps, and Seats, these modular components let you design a dock that fits your lifestyle. **Mix and match** elements to create the perfect setup for boating, relaxing, or entertaining. Whether you're looking for easy boat access, comfortable seating, or a dedicated lounging area, Spinera Boating Dock Modules offer unmatched flexibility and style, turning your dock into a personalized heaven on the water.

USE CASES FOR DOCKS ON DIFFERENT BOATS

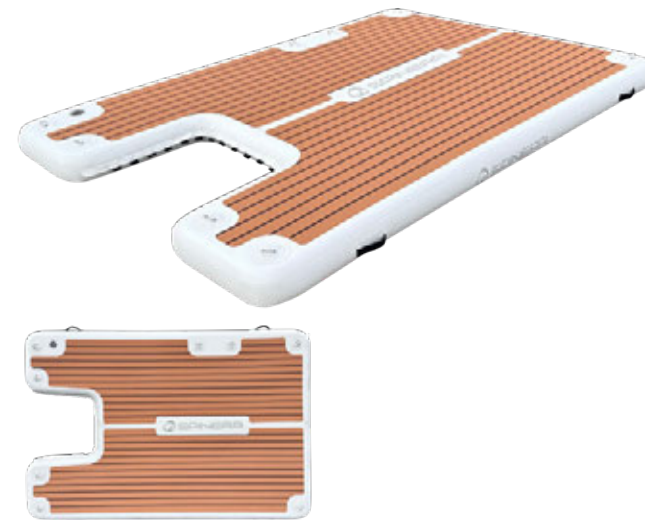

SINGLE OUTBOARD DOCK

TWIN OUTBOARD DOCK

INBOARD / PANTOON / ANY BOAT-DOCK

BOATING SINGLE OUTBOARD DOCK 3.08

The perfect dock platform for your boat

With the Spinera Boating Single Outboard Dock, you can create a stable and versatile platform right behind your boat in no time. Thanks to the special outboard engine recess, this dock is perfectly designed for boats with a single outboard motor.

At the same time, it is also suitable for inboard boats or pontoon boats – offering maximum flexibility for your individual needs.

The robust 15 cm HDDS Dropstitch construction ensures maximum stability and durability. Multiple platforms can easily be connected with the included cam buckle straps, allowing you to create your very own water landscape depending on your needs – whether as a sunbathing area, swimming platform, or practical access to your boat.

PRODUCT DETAILS:

- Size: 308 x 205 cm
- Material: 15 cm HDDS Dropstitch Platform
- Valve: 1 High Pressure Valve
- Attachment: 7 D-rings (#316 stainless steel)
- Carrying comfort: 8 side handles – for easy handling and flexible connection with other docks, e.g. Spinera or YACHTBEACH
- Outboard Engine Gap: 60 x 75 cm
- Pack size: 82 x 40 x 26 cm
- Weight: 21,5 kg

DELIVERY SCOPE:

- 1x Basic Carry Bag
- 2x Cam Buckle Straps for connection with additional platforms
- 1x Repair Set

OPTIONAL ACCESSORY:

- 26115 Spinera Mesh Step with 2 steps for Single Outboard Dock

CODE 26094

PRICE excl. € 672,23
incl. VAT € 799,95

BOATING TWIN OUTBOARD DOCK 3.08

The perfect dock platform for boats with twin outboard engines

With the Spinera Boating Twin Outboard Dock, you can create a stable and versatile platform right behind your boat. Thanks to the large engine recess, this dock is specifically designed for boats with two outboard motors.

At the same time, it can also be used for inboard boats or simply as an additional relaxation area – maximum flexibility for any purpose.

The robust 15 cm HDDS Dropstitch construction ensures maximum stability and durability. Multiple platforms can easily be connected with the included cam buckle straps, allowing you to design your very own water lounge – whether as a swimming platform, boarding dock, or comfortable sunbathing area.

PRODUCT DETAILS:

- Size: 308 x 205 cm
- Material: 15 cm HDDS Dropstitch Platform
- Valve: 1 High Pressure Valve
- Attachment: 7 D-rings (#316 stainless steel)
- Carrying comfort: 7 side handles – for easy handling and flexible connection with other docks, e.g. Spinera or YACHTBEACH
- Outboard Engine Gap: 135 x 75 cm
- Pack size: 72 x 39 x 26 cm
- Weight: 17,5 kg

DELIVERY SCOPE:

- 1x Basic Carry Bag
- 2x Cam Buckle Straps for connection with additional platforms
- 1x Repair Set

OPTIONAL ACCESSORY:

- 26116 Straight Chill Mesh for twin outboard dock

CODE 26095

PRICE excl. € 756,26
incl. VAT € 899,95

BOATING CHILL DOCK 2.05

The compact relaxation platform for pure holiday feeling on the water
The Spinera Boating Chill Dock is the ideal platform to relax directly on the water. Thanks to its compact size, it is perfect for chilling, sunbathing, or as an extension to other Spinera or YACHTBEACH platforms. The permanently integrated Chill Mesh provides maximum comfort and invites you to lounge right on the water's surface.
With its sturdy 15 cm HDDS Dropstitch construction, the Chill Dock offers top quality, high durability, and long-lasting performance – all with minimal storage size and low weight.

- PRODUCT DETAILS:**
- Size: 205 x 155 cm
 - Material: 15 cm HDDS Dropstitch Platform
 - Valve: 1 High Pressure Valve
 - Attachment: 4 D-rings (#316 stainless steel)
 - Carrying comfort: 3 side handles – for easy handling and flexible connection with other docks, e.g. Spinera or YACHTBEACH
 - Chill Mesh: permanently integrated, non-removable
 - Pack size: 60 x 35 x 22 cm
 - Weight: 7,5 kg

SPINERA PROFESSIONAL - THE PREMIUM BRAND FOR INTENSIVE USE!

The Spinera Professional Line offers outstanding high quality and is made especially for rental and commercial use, as well as for private customers and superyacht owners, who look for the best quality on the market only. Watersport centers and park operators enjoy the long-lasting products, especially the indestructible heavy duty material, profitable conditions, a professional partner and service at its best with Point of Distribution, an international sales division of watersport goods.

SPINERA PROFESSIONAL OFFERS WATER FUN FOR YOUR LUCRATIVE BUSINESS:

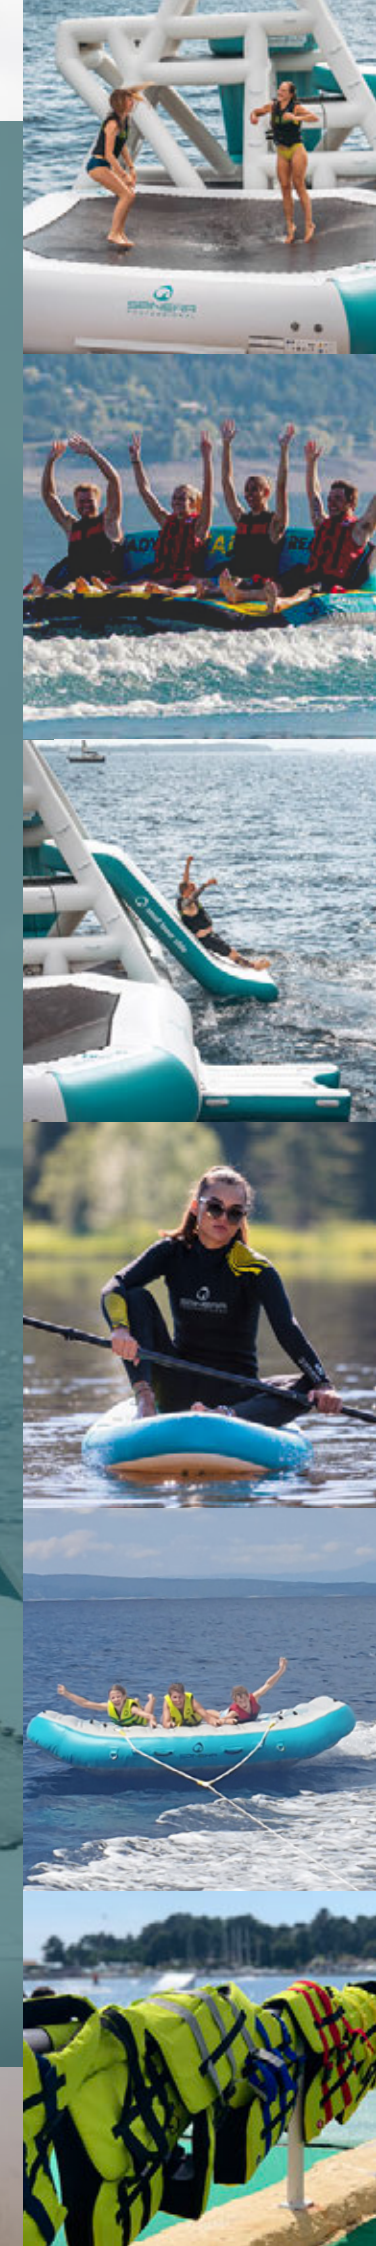

- The Spinera Professional Aquapark products leave no dreams unfulfilled and offer not only action-packed jumping and climbing, but also the possibility to slide down several slides into the water - directly behind a yacht or as a stand-alone product at a lake.
- High-quality double layer rental SUP boards with better UV resistance, longer durability of the material & abrasion-proof rubber side wall
- With our particularly for watersport stations designed innovative professional towables with 0,9 mm PVC thickness & our durable heavy duty towables with extra strong 1000D reinforced PVC material we are offering best quality for a good price level, which our operators love.
- The high endurance, super stable ABS Wood-Sandwich construction & slider base are one of the key features of our prosperous Rental Wakeboards
- Operators value the professional and colored rental vests and suits for an easy & fast size information

Whether you need inflatable tubes, Aquaparks, fun products, wakeboards, kneeboards, water skis, SUPs, neoprene products, vests and accessories - from us you get everything from one provider on favorable terms.

The valves are very big and of high quality.

Every handle has been glued very steady.

Towing ring has been glued plurally.

Strengthened rear caps for more stability.

LARGER TUBE
DIAMETER

SPINERA PROFESSIONAL DOUBLE MULTIRIDER HD

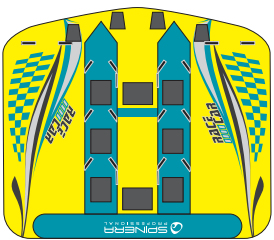

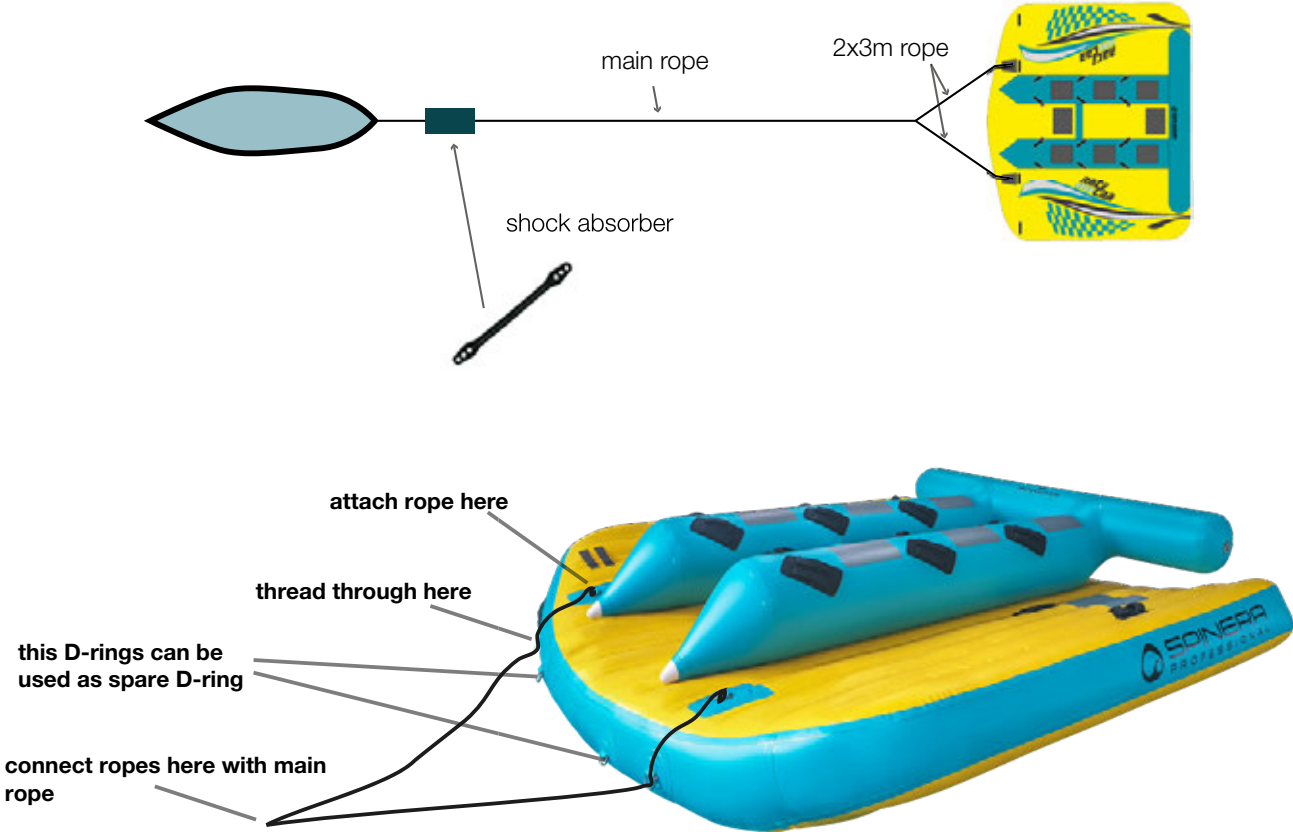

Our double Multirider was designed with the commercial resort operator in mind. This design of Water Banana pulls easier with less water resistance because of the gradual bow and stern rise. Large reinforced shackle-rings are located on both tubes.

- Standard Features:
- Main tube fabric: 1.000 denier / 0.9mm thickness
 - Side rubbing strake on the side tube
 - Reinforced shackle d-rings
 - Soft handles
 - 3-chamber security system „we take care about safety“

WATER GLIDER HD

PRODUCTION: The Water Glider was designed and developed completely through many years of trial and error. We are proud of the Water Glider and its reputation with customers around the world.

The Water Glider 6 has become the most popular model to our European customers. The Water Glider is constructed with super tough fabric tube and the bottom is specially reinforced to withstand commercial use. Large reinforced shackle-rings are located on tubes.

ATTENTION: Max Speed: 20 mph / 32 km/h
All faster towing is on boat driver and riders own responsibility.
